# About Us

PT. Gifera Odo Technology was founded in 2014 in Jakarta, Indonesia. We provide solutions for voice and video communication, network infrastructure, and multimedia.

We offer Information and Communication Technologies (ICT) solutions with excellent service and experienced technical support in this decade.

We help clients with free consultation and prioritize creativity in order to provide the best solution for client needs. Our team of experts has a successful track record of managing various types of communication systems integration projects in various fields of education, government, oil and gas, and other sectors that work effectively with professionals.

## VISION

“ Become a national company and provide creative solutions with experienced and certified technical support, and supported by quality products and competitive prices in the field of ICT (Information and Communication Technologies), especially in the fields of infrastructure, multimedia, and communication (data, voice, and video).”

## MISSION

“ Focusing on good service. Provide appropriate solutions to partners or customers for the investment incurred. Maintaining honesty, integrity and creativity to continue to innovate in the ICT field.”
